# **Steelcase**

#### **Company information**

Owner of the EPD:

AF Steelcase S.A. Calle Antonio Lopez,243 28041 - Madrid, Spain Phone: +34912124700

Email: afinfo@steelcase.com

#### **Description of the organisation:**

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

Research and insights direct our path. It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result. In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications, such as ISO 9001, ISO 14001, ISO 14006, PEFC, FSC® (FSC-C003932), and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.

#### **Product information**

Product name: Implicit mobile pedestal (9U)

**Product identification:** 546S00142

Production site: This product is manufactured

in Steelcase Madrid (Madrid, Spain).

**Product description:** Implicit pedestals make smart use of space, offering a range of solutions for resident and nomadic workers. Organisational accessories keep the interior tidy and make it easy to find what you need. Upgrade the standard version of Implicit with

optional premium fronts. Premium fronts showcase a vertical accent-color line that adds a touch of style to any setting. Implicit pedestals come in melamine, steel and veneer.

Height: 516mm Depth: 588/788mm Width:419 mm

UN CPC code: 38121 - Other metal furniture,

of a kind used in offices

Geographical scope: Spain

VERSION 02 PAGE 3/12

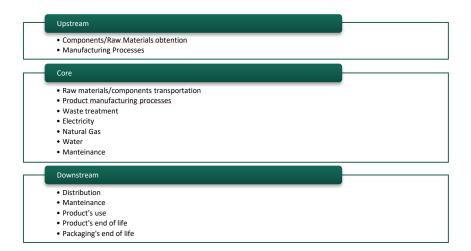

# **LCA** information

Functional Unit	Consists in one Implicit mobile pedestal (9U) in use for 8 hours a day, 5 days a week, for 15 years.				
Source(s) of data	All information about manufacturing processes has been supplied directly by internal data of Steelcase Madrid. The Information about raw materials/components and distances has been supplied directly by our suppliers. All raw materials and components are transported by road.				
Reference year for data	2019				
LCA Software/ database(s) used	SimaPro v9.1.0.11 multiuser / Ecoinvent 3.6 Database				
Exclusions	No exclusions were made				
Assignment rules	In this study was considered necessary to perform a physical assignment (in fuction of produced units) for water, oil, natural gas, water, and electricity consumptions.				
System boundaries	System boundaries include raw materials and components, production (includes processes and facilities maintenance), transport, packaging, distribution, use and end of life, both for the product and for its packaging.				
System Scope	System's scope includes the whole life cycle of the product, from obtained raw materials to manufacturing, use and end of life. System is divided in 3 stages:  • UPSTREAM: Includes components, raw material obtention and their associated manufacturing processes.  • CORE: Includes transportation of raw materials and components from our suppliers to Steelcase Madrid, product manufacturing processes and waste treatment.  • DOWNSTREAM: Includes clients shipping, products maintenance, product use and end of life, both for the product and for packaging.				

VERSION 02 PAGE 4/12

This document has been created contemplating environmental impacts of raw materials and components, their transport and multiple transformation and manufacturing processes, treatment of generated wastes as well as the final product distribution to the customer and the end of life of the product and its packaging.

VERSION 02 PAGE 8/12

#### **Additional information**

#### Recommendations for use

- In order to guarantee an adequate life cycle, it is necessary to clean the surface regularly, using a wet cloth.
- For daily cleaning it is recommended to use a soft duster.
- Wood components do not emit formaldehydes, in accordance with the E1 reduced emission standard (EN 13986).
- Implicit pedestals are designed to be easily updated and repaired and can be easily assembled and disassembled using hand tools.

#### **Transport**

 Both the weight and the volume of the product and packaging have been reduced to a minimum, to minimize the energy consumed during transport.

#### Composition

- This product does not contain hazardous materials (i.e., PVC, cadmium, mercury, hexavalent lead) or harmful additives (i.e., fire retardants).
- Solvent-free, water-soluble inks are used on paper and packaging.

#### **Production**

- This product has been designed to achieve a minimum environmental impact.
- The adhesive used in the edgebanding does not contain any VOCs.
- The paint used does not contain any VOCs or heavy metals.

#### Disposal

- Packaging materials are 100% recyclable.
- The Implicit mobile pedestal (9U) is 97,79 % recyclable, measured in terms of weight.
- All plastic parts weighing over 50g are marked in accordance with ISO 11469, in order to facilitate their recycling (packaging excluded).
- Once the Implicit mobile pedestal (9U) reaches its end of life, it has been designed to be separated by components and recycled.
- All materials have been considered in a recycling scenario at their end of life, except for hotmelt adhesive, paint and silicone.

VERSION 02 PAGE 9/12

# **Steelcase**

#### **Notes**

- Data shown in this declaration will be valid if there are no significant changes in the process analysed.
- Results obtained are not comparable for other product references or about other declarations, drawn up based on another certification system.
- The verifier and the program operator are not responsible for any claims about the product or the legality of the product.

#### Differences versus previous version

- 2021-07-01 Version 00
- 2022-06-03 Version 01

**Content change**: This version includes an update in the composition of the used electrical mix. The Upstream stage is expanded to include raw materials manufacturing/transformation processes

• 2022-06-20 - Version 02

Editorial change: The EPD is redesigned using Environdec's template
